Masonic.

[BY A LADY.]

The Masons of Aurora, Illinois, having recently erected a large and splendid hall, dedicated it, with appropriate ceremonies, on St. John's day. Rev. O. H. Tiffany delivered the oration, remarkable for its impressive eloquence. At the banquet, the following poem was read by one of the brethren, which, we think, will be appreciated by some of our ladies:

A Mason's life is one that's free—
(Not the life tho' of mortar and bricks)—
But out of nights enjoying a spree,
And playing astonishing tricks.
While the women at home are waiting,
Ne'er dreaming it all a dodge,
But thinking the sad belating
Is caused by "work at the lodge!"
Where they meet upon the level,
To part upon the square,
And raise the very d——l
While congregated there.

If a bachelor chap in his courting days
Grows weary of being tied,
Both day and eve, almost always,
At his fair Dulcinea's side—
The easiest way to escape a while,
And in fact some calls to dodge,
Is to seek the aid of a Mason friend,
And join a Masonic Lodge,
Where they meet, etc.

If a married man is tired of home,
If he out at night would dodge,
And from his life-companion roam,
The wretch will join a lodge!
Where they meet, etc.

The wonen don't like Masons—
Don't believe in them the least—
From the Tyler at the entrance,
To the fellow in the East.
Lodge meetings are but covers
To hide some larking dodge—
Look out when mates and lovers
Have "business at the lodge,"
Where they meet, etc.

Now, whate'er the Masons' secret,
Be their fetish goat or ram;
Be their order good or evil;
Worth a blessing or a —— psalm!
Let them keep it, snug and cosy,
Let them worship (in a horn),
Let them be sedate and prosy—
But as sure as they are born
We'll yet meet them on "the level,"
And ere we part be "square,"
For at some lodge-held revel,
The women will be there.

Then woe betide the sinner
Who "spreads it" in the East;
Fear will make him rather thinner,
Though he may be fat—the beast.
And all their grand regalia—
Skin aprons, scarfs and jewels—
We'll seize upon as plunder,
For women all a'n't fools,
Though they don't meet on a level,
And don't part on a square,
Still they all can raise the d——l
If they get a chance that's fair!

FROM THE WEST.

[From the Reese River Reveille.]

San Francisco, March 20.

The Colorado, which sailed from San Francisco on the 1st of January, to inaugurate steam mail service between this coast and Japan and China, returned safely to her berth in this city this morning, having made the first round trip in 79 days, stopping seventeen or eighteen days at Hongkong, and three at Yokohama, making the actual sailing time, going and coming, fifty-eight days; the total distance traveled being about 12,700 miles, which would show an average daily speed of about 219 miles.

The outward passage to Yokohama, a distance of 5,250 miles, was made in a little less than twenty-two days, without seeing land or a sail. There was not a single stoppage or accident on the way.

The Colorado was warmly received at Yokohama, and received a special compliment from the French war ship in the port.

The English and other residents of Hongkong gave the Colorado a very cordial greeting.

Among the passengers by the Colorado are two Japanese Commissioners, named respectively Onotomagaro and Yudayre. They came to inspect our navy yards, forts, vessels and implements of war, and are accredited to Washington, whither they will proceed by the next steamer. Their arrival was at once telegraphed to Secretary Seward.

The Commissioners and their attendants number ten persons in all.

The present Tycoon is favorable to free intercourse with foreigners, and the benefits of his liberal policy will be enjoyed in a large degree by the United States than by any other country.

One of the passengers is G. F. Seward, the American Consul General in China, and nephew of Wm. H. Seward, who is on his way east after an absence of several years in China.

Gold sold in New York yesterday at 134. Legal tenders are quiet at 74½ buying and 75 selling.

Two cases of small-pox have been reported at the Health Office this morning. One is a servant girl, and the other a passenger by the steamer Constitution, from the east.

Mrs. P. D. Headley, John A. Paxton and J. H. Wright have filed with the County Clerk a declaration of their intention to petition Gov. F. F. Low for the pardon of Peter D. Headley.

The trial of the suit of Caroline F. Clark vs. Michael Reese, to recover $100,000 damages for an alledged breach of promise of marriage, is now going on in the Fifteenth District Court. The Court room was crowded with spectators.

From Chinese papers we collect the following items of news. A terrible explosion took place in the harbor of Hongkong, about noon on the 17th of January. A hulk called the Zephyr, used for the storage of powder, blew up and was totally destroyed, as well as the Bremer, three masted schooner, Themi, which was taking in powder at the time. From thirty to forty persons were killed in all; those on board the above named vessels being blown to atoms, as no fragments of them were afterwards found. Many persons who were in boats in the neighborhood, were killed by the explosion. There were two Europeans on board the Zephyr, and seven Europeans and two Chinese on the Themis, of whom no trace was found. The Zephyr had 200,000 pounds of powder on board, and though on the opposite side of the harbor the shock of the explosion made the town of Hongkong shake as with an earthquake, while the windows were blown in and the frames in many instances being torn from their fastenings. The boats of all the British men-of-war and the United States steamer Hartford, the Asbelote and the Italian frigate Magenta, were at once lowered and proceeded to the scene of the disaster, but nothing was to be seen but a disturbed sea of small pieces of wood, with here and there a larger piece of timber, stancheon or bit wa[illegible] to be seen. At the village of Yamahtee on the Kowloo side opposite, where the Zephyr was lying, considerable damage was done, some 1[illegible]0 houses having been more or less shaken down and unroofed. The noise of the explosion was distinctly heard on the steamer Kinshaw on her way down from Canton, when abreast of Woochow, thirty miles distant. It was reported that some chain, cable and a part of the mast were found in a field near three quarters of a mile from the water's edge.

The U. S. steamer Wachusetts left Chefoo on Jan. 21st., for Corea, to make inquiries regarding the fate of the American schooner General Sherman, which had been wrecked there. It was reported that the English, French and American Ministers have agreed to go there together in the spring, accompanied by their respective fleets, and insist on treaties.

San Francisco, March 21.

A private letter from Hongkong says the arrival of the Colorado has given the John Bulls a sensation. Many believed there never would be any such great enterprise undertaken by the Yankees. How they rub their eyes and swear. The same day the Colorado came in a French mail steamer arrived direct from Europe. The news by the Colorado was eleven days later than by the European steamer.

A little American schooner arrived yesterday from Boston in 124 days. She is but seventy-nine tons burden. It is considered a remarkable trip.

It has been raining and hailing all the morning.

Legal tendets, 74@74¾.

San Francisco, March 17.

Minnie Lyons, aged seven years, daughter of J. D. Lyons, miner in Nevada county, was fatally burned yesterday by throwing shavings in a stove and the fire flashing up and igniting her dress.

Emma Graham, aged six years, daughter of a laboring man, was killed yesterday by the caving of a sand bank, at the corner of Market and Taylor streets. Her sister was extricated alive, but was severely bruised.

Stephen Paine was seriously injured last night at Molly Dunn's saloon in Virginia street, by Thomas Diereson and Wm. Crudden, well know desperadoes. The assailants were armed with an ax and canes. Paine's recovery is doubtful.

Oregon City, March 16.

Last night about nine o'clock a man named William Elliot died suddenly. The Coroner having examined into the cause of his death found the cause was an over dose of strychnine. The deceased had a few hours before his death purchased four or five grains of strychnine, and the empty bottle was found in the fireplace this morning. No reason can be assigned for the act.

Yreka, March 16.

There is a rumor current that McCloud and Anderson, who left here some time since with a band of cattle for the North, via Klamath Lake, were murdered by the Indians. Their cabin was found burned and no tidings of them learned in the vicinity or at any of the ferries.

The weather for the past week has been clear and very cold; so cold that mining has been nearly suspended. The mercury was as low as 15° above zero.

San Francisco, March 21.

A third case of small-pox was reported at the Health Office this morning, and sent to the small-pox hospital.

The Sierra Nevada cleared this afternoon for Mexican ports with a large assorted cargo of merchandise, valued at upwards of $117,000.

Private telegrams quote gold in New York, yesterday, at 134¼.

Legal tenders are in moderate request, at 74¼ buying, and 74½ selling.

San Francisco, March 22.

General Halleck has issued the following military order: "Official notice having been received of the arrival in this city of Ono Tomogoro and Matsmoto Judi Yu, Commissioners to Washington from his Majesty the Tycoon of Japan, they will be received at such military posts in this Division as they may be pleased to visit, with the honors due to public Ministers."

The *Alta* has the following Mexican news: President Juarez remains at San Luis Potosi.

Several detachments of the Liberal army under General Escobado, are in the vicinity of Zacatecas. There is a rumor of a battle having been fought near that city with the imperialist forces under Miramon. It is said that over 2,000 lives were lost in the encounter. It is reported that Miramon gained the victory, having routed the Liberals.

It is known for a fact that Maximilian has taken personal command of the Imperialist army. He had left the City of Mexico, and was marching towards Zacatecas to attack the Liberals. Marquez is in command of one division of Imperial troops.

Portiero Diaz remains near Pueblo, and is continually harassing the Imperialists whenever opportunity offered.

The Imperialists have possession only of the cities of Mexico, Puebla and Vera Cruz.

The Liberal army consists of about 35,000 men, divided as follows: Escobado, 11,000; Portiero Diaz, 8,000; Carvaljal, 5,000; and about 500 men at Mazatlan, under the orders of Martinez.

All is quiet in the State of Sonora. Gen. Pesquera is at Ures, the capital, busily engaged in the organization of the State laws.

Corona, Commander-in-chief of the western army, has published a decree levying a contribution of one per cent on all property, whether landed, mineral, mercantile or industrial, which exceeds $1,000 in value, one half to be paid in fifteen days. The decree comprises the States of Jalisco, Sinaloa and Colima. It is thought doubtful that General Lozado will allow the decree to be enforced in the State of Jalisco.

The Imperial army is believed to be in a better state of discipline than the Liberals, as it comprises a large body of French and Austrian soldiers, who enlisted under Maximilian.

Louisville, March 21.

The destitution along Green River, Tennessee, is very great. The people are suffering for the necessaries of life and some places are entirely deserted. Shawneetown is submerged, and the wharf boat is crowded with unfortunate refugees.

Chicago, March 21.

A letter from Fort Rice, Sioux attacked and capt[illegible] the Yellowstone river, [illegible] men and women and ch[illegible]

The Daily Union Vedette.

FRIDAY MORNING, MARCH 29, 1867.

Those abroad indebted for subscription or advertising will also be expected to remit us the cash as soon as bills are received by them.

No papers will be sent to a distance unless paid for in advance.

Salt Lake City, November 5, 1866.

Indian Policy.

So far as we have been able to gather from our eastern exchanges, the Government seems to be vascillating between the two policies, which have advocates on either side, relative to Indian matters. The bill to transfer the Indian Bureau from the Interior to the War Department, appears to have failed in Congress either for want of time or for some other reason. So, while the Secretary of War is sending his soldiers into the field to chastise the red skins, the Secretary of the Interior is sending his commissioners to investigate and report. It is just this sort of slip shod policy, half war and half peace, which has so long entailed ruinous consequences on the country. General Sherman, in his report to General Grant, declared that the only policy which would give assurance of peace in the future, was "extermination of the Sioux, men women and children." But there are still in Congress a goodly number of blanket diplomatists who insist on coaxing and bribing the savages by sugar plums and presents. The leader of this sentimental school of law-givers, strange as it may seem, comes from Minnesota, a State which has suffered greatly from Indian massacres. Mr. Windom was one of the four or five members of the Congressional Committee of Inquiry into the charges against Commissioner Bogy, and reported favorably, although it appeared in evidence that the Commissioner had sanctioned the sale of arms and ammunition to the red skins.

On the 1st of March the Deficiency Appropriation bill being under consideration in the House, the following action was had:

"Mr. Garfield moved an appropriation of $20,000 for the expenses of the Commission appointed by the President to visit the Indian country near Fort Phil. Kearny, to investigate the recent massacre there.

"Mr. Windom sustained the amendment, and said that one of two things would have to be done with these Indians; either adopt a policy that would pacify them, or adopt the policy of General Sherman, who, in his letter to General Grant said: 'We must act with vindictive earnestness against the Sioux, even to their extermination—men, women and children. Nothing else will reach the root of the case.' He (Windom) himself favored at least an attempt to keep the Indians at peace.

"The discussion took a somewhat wide range, bringing up the question as between military and civil superintendence of the Indians. Finally, the amendment was rejected, on which Mr. Windom's commentary was: 'Well, go ahead and assassinate all the Indian women and children.'"

Whether the appropriation of $20,000 was secured by tacking to some other bill we know not, but the Commission, one of whom is ex-Judge John Kinney, whilome of this Territory, has been appointed. Nearly a hundred gallant white soldiers, with three officers, were surrounded by 2,200 painted demons, and brutally massacred almost in sight of Fort Phil. Kearny months ago, and now a Commission of four or five, mainly civilians, is being sent out to investigate the affair. Just what they are to investigate is not so clear. There is not much doubt of the fact, and if there were, an hundred mutilated corpses are witnesses who cry aloud for vengeance. If the $20,000 proposed to be distributed among these patriotic and inquiring Commissioners, were to be expended in powder and lead for the benefit of the scalping savages, it would suit our notions far better. But the Commission is at work. They have progressed westward as far as Omaha, but seem disinclined to go further. We clip the following from the Omaha *Herald*, of the 9th inst., bearing on the subject:

"We say the Commission is still in this city. So they are. We congratulated ourselves, the other day, that they were going to Phil. Kearny to investigate Indian affairs. We forgot ourselves for the moment, and imagined the Government had an Indian policy. We beg to correct so gross an error, for this is even not yet settled, nor will it ever be, in our opinion. We hear it rumored that the Commission is suspended on a telegram. Which way they will swing, whether East or West, or 'around the circle,' it is not for us to know. As outside observers we detect the same old wishy-washy, namby-pamby course that is ever pursued by the Government towards Indians. It is the Englishman's 'half and half' illustrated. It neither makes war nor gives us peace with these Indians.

"If Kinney and Beauvais find themselves in high position, 'occupation gone,' it will not be the first time in history that such things have occurred to civil functionaries. The military department can stand it, we doubt not."

PACIFIC BUSINESS COLLEGE.—We visited this institution a few days since, at its new quarters in the Mechanics' Institute. Until now, we were not aware of its extent and usefulness in preparing young and middle-aged men for active business. Too much cannot be said in its praise. Here the student receives a thorough theoretical and practical education, and when graduating is prepared for an active business life. The course of study embraces every variety of business and finance, banking, book-keeping, business penmanship, correspondence, commercial arithmetic, business forms and papers, mercantile law, partnership, settlements, political economy, modern languages, etc. In the theory department, the groundwork of permanent success is laid. In the department of practice, all the various branches of real business, bank insurance, exchange, etc., etc., by the use of checks, drafts, notes, bills, orders, bills of exchange, bills of lading, etc., representing all the business paper in use, thus making the school-room a miniature world of practical business, where in a few months is acquired the experience of years. A large number of students were in attendance, and the College, under the able management of Mr. E. P. Heald, President, is in a successful and prosperous condition. It is well worthy a visit from all who take an interest in the business of life. An institution the same as this is established in Portland, Oregon, under the management of P. [illegible]ndenslager, formerly connected with this College.—*San Francisco*

BY PACIFIC TELEGRAPH.

[SPECIAL TO THE "DAILY UNION VEDETTE."]

Washington, March 27.

In the Senate, a telegram was read from the General Manager of the Union Pacific Railroad, west of Omaha, stating that the work was progressing rapidly, and would be pushed forward at the rate of two miles per day for the next hundred days.

Henderson, of Mo., from the Finance Committee, reported a bill guaranteeing bonds of the State of Louisiana to the amount of $6,000,000, for the construction of levees on the Mississippi river. Ordered printed.

A resolution providing that hereafter neither the President or the Secretary of War shall make treaties with Indians until an express appropriation therefor has been made, was adopted.

Two reports were submitted from the Judiciary Committee in relation to the alleged connection of Senators Doolittle and Patterson with the New York Custom House frauds. Both reports declare the entire innocence of those gentlemen.

Washington, March 27.

In the House, a bill to incorporate the Lincoln Monument Association was passed.

Barnes, of N. Y., offered a resolution for the appointment of a Select Committee on Southern Railroads. Adopted.

Senate amendment to House resolution relative to adjournment was taken up. Schenck, of Ohio, offered an amendment to the amendment, which was a modification of the previous proposition, and names the first Wednesdays of June and September as the times for the reassembling of Congress. Agreed to —75 to 51.

Banks, of Mass., from the Committee on Foreign Affairs, reported a joint resolution declaring that the United States cannot regard the proposed confederation of the Provinces on the northern frontier of this country without extreme solicitude; that a Confederation of States on this continent, extending from ocean to ocean, established without consulting the people of such Provinces, and founded on monarchical principles, cannot be considered otherwise than in contravention of the traditions and constantly declared principles of this Government, as endangering our most important interests, and tending to increase and perpetuate the embarrassments already existing between the two Governments. After some discussion, the resolution passed without a division.

Banks also reported from the same Committee a resolution declaring that this House extend its sympathy to the people of Ireland and of Candia in all their efforts to maintain the independence of those States, and to elevate themselves, and extend and perpetuate the principles of liberty.

An amendment was moved to the effect that the House believed that the present Fenian movement must prove entirely inoperative, and that any encouragement given to it by resolution, unaccompanied by force, could only result in involving brave Irishmen in difficulty from which this Government would be powerless to extricate them.

Banks said the amendment had been before the Committee and had been rejected, the Committee not deeming that a matter in which they should interfere. He hoped the amendment would not prevail.

Fernando Wood, of N. Y., and Eldridge, of Wis., also spoke against the amendment, which was rejected by 117 majority, and the joint resolution, as reported, then passed unanimously.

On motion of Hulburd, of N. Y., a resolution was adopted, by 30 majority, requesting the President to remove Henry A. Smythe from the office of Collector of the Port of New York.

Washington, March 27.

The supplemental Reconstruction Act is officially promulgated by the Secretary of State to-day.

New York, March 27.

An express train on the New York and Erie Road was thrown from the track, near Stanhope, this morning, and the engineer killed and several passengers injured.

New York, March 27.

The Richmond *Times* says that Gen. Robert E. Lee has thrown the influence of his name in favor of a State Constitutional Convention in Virginia.

St. Louis, March 27.

General Sherman has issued an order providing that two pieces of artillery and twenty muskets shall be supplied each steamer that ascends the Missouri river, above Sioux City, the coming season, and authorizing the commanding officers of posts above Sioux City to increase the number of muskets and the amount of ammunition, if deemed necessary for the safety of the boats.

New Orleans, March 27.

General Sheridan has issued orders removing from office the Mayor of New Orleans, the Attorney General of Louisiana, and Judge Abell of the First District Court. Edward Heath is appointed Mayor; B. L. Lynch, Attorney General, and W. S. Howe, Judge of the First District.

Reports from the river above state that the levees are giving way and that the whole lower Mississippi valley will probably be inundated.

New York, March 27.

The English papers publish a rumor that the United States Government, through Minister Adams, has called the attention of the British Government to the neglected condition of Ireland, and pointed out the method which is believed to be best calculated to allay the disaffection there, and also the ill feeling which exists among the Irish population in America.

The Emperor's Speech made in the French Legislature is silent on French politics, but contains this significant sentence: "But for Ministerial responsibility, the British Government would have broken up the American Republic long ago." Emile Ollivier made a speech urging France to honestly accept the transformation which had taken place in Germany, and which was not directed against France.

La Prince says the basis of an understanding between France, Russia and England on the Eastern question exists, which permits a hope of its satisfactory solution.

La France also says there exists in the foreign policy of France no single question capable of embarrassing her diplomatic action abroad or of disquieting public opinion.

The health of Empress Carlotta continues good.

The Austrian Deputies will probably meet April 29th. It is stated that the Emperor will sanction the introduction of a bill to confer the right of trial by jury in Austria.

New York, March 28.

Rumor has it that Joe Coburn and John C. Heenan are to fight for $10,000, and the Championship of America.

A *Times* special says the House Judiciary Committee have temporarily suspended the examination of impeachment witnesses, but will resume their labors about the 1st of May, whether Congress is in session or not. The Chairman has notified the members of the Committee to be in Washington at that time.

A *Herald* special says, as to the impeachment matter, that the oldest member of the Judiciary Committee, besides parliamentary experience and in years, has said within the last twenty-four hours that the Committee will notify all persons to bring forward their evidence, and at the same time announced that there was no sufficient evidence before the Committee at the present time. And this seems to be the opinion of all who have the most intimate relations with the Chairman of that Committee.

A *Tribune* New Orleans special says that General Sheridan's order sweeping from office the Attorney General, Mayor, etc., and substituting good and loyal men, thrills the Union men with joy, and fills the Nullifiers with dismay.

The *Tribune's* Washington special denies the statement that Senator Wilson's resolution for the release of Jeff. Davis would be reported favorably upon by the Judiciary Committee. The resolution was not referred to that or any other committee, but lies on the table of the Senate.

New York, March 28.

The *Herald's* correspondence from Ireland contains some additional items of the Fenian situation in Ireland. Quite a number of the British infantry had already been invalided by the duties of the campaign, and many cavalry horses had died of fatigue and exposure to the extreme cold weather. A fight, we are told, had occurred among the British troops near Cork—Fenianism being the exciting cause. The men of the 72d (Scotch) Infantry sided with the Irish, and many members of an English regiment were roughly handled. The people of Cork cheered the Scotch soldiers next day.

Columbus, March 27.

In the Ohio Senate, to-night, a resolution proposing an amendment to the State Constitution, giving the right of suffrage to negroes, passed by 12 majority.

Macon, Ga., March 27.

A mass meeting of freedmen held here was addressed by several prominent citizens. The speeches and resolutions were conservative in tone. The latter return thanks to Congress for their emancipation and the boon of suffrage; declare that they cherish no bitter feelings toward their late masters, but are respectful and faithful in the discharge of their duties. They also indorse the policy of Governor Brown, and recommend the people to accept the terms proposed by Congress.

New York, March 27.

Cotton is dull. California flour in fair request. Sales of California wheat at $3 10. Dry goods in steady demand for staple cotton goods, but no really active trade; prices apparently as low as can be made.

Mariposa (Cal.) Mining shares, preferred, 22¼.

[BY ATLANTIC CABLE.]

London, March 27.

In the House of Commons, the Reform bill passed to a second reading without a dissenting voice. The debate was fixed for April 8th.

Berlin, March 27.

The North German Parliament has accepted the new Constitution, the provisions of which are mainly in accordance with the plan prepared by Bismarck.

London, March 27.

A dispatch from the East states that a Servian prince is about to depart from Belgium for Constantinople, on a visit to the Sultan.

Accounts from Athens report no fighting in Candia for two months.

Frankfort, March 27.

United States bonds, 77½.

Paris, March 27.

United States bonds, 84¼.

London, March 27.

United States bonds, 74¼. Consols, 91¼.

Liverpool, March 27.

Cotton dull. Breadstuffs dull.

MOVING.—We clip the following from *The Landmark*, a paper published in Weston, Missouri, which is replete with beautiful sentiments:

We are at the beginning of our moving season. The Americans are emphatically a migratory race. We see families with droves of cattle and all their household goods moving from Missouri to Kansas and others moving from Kansas to Missouri. We think either State a good one to move from just now. And them the renters are on the move. The first of March in the West, like washing day in New England, brings its peculiar trials and upturnings. Nearly every one not anchored by ownership in the soil, is on the tramp, hunting a new place of residence and toil for another year. How much richer and happier we would be as a people if every man owned a small farm and made of it a home which both secured him the comforts of life and gratified his pride. A home, we mean, not a stopping place for a year, but a home, enriched, adorned and beautified by fertile fields and orchards, blushing vineyards, grassy lawns and beautiful shrubbery without, and by music and art and christian graces within, and made sacred by the graves of loved ones, not lost, but gone before—a home, sweet memories of which will abide with the children and to which they will fondly repair long after the cares of life have rested heavily on their hearts and there, bathing their souls in a real fountain of youth, renew their vows to truth and duty and go forth stronger and better men and women. Ah, happy they, and thrice armed in the battle of life, whose hearts and feet are permitted to make joyful pilgrimage to such a Mecca and refresh their weary souls at such a golden fountain.

More homes, more homes! We need them. We will never be a happy and prosperous people without them. This constant change, moving and scrambling is one of the social system of the West. And such homes are within the reach of all who are blessed with health and willing to do honest toil. Why not have them?

WE had a call yesterday from Bill Comstock, the famous scout, guide and interpreter, and Escalera, another celebrated Comanche interpreter and guide. They are just from Fort Wallace, but have been on a long trail in pursuit of a desperado known as Sam Gates, whom they tracked for five hundred miles and at last arrested him in this city last Sunday. Gates' last exploit was to entice away four soldiers and guide them beyond reach of the military authorities. This is the offence for which he was arrested. Mr. Comstock is a slight but active looking man, who glories in the rough pecularities of the border adventure. He has been frequently mentioned by the press as giving opinions of the temper and probable design of the Indians. One occasion that will be remembered by our readers, was in connection with the dispatch, respecting the recently reported massacre on the Smoky Hill, but the reference to him had no connection with that report. We believe he is the same, also, that is mentioned by Bayard Taylor in his book on Colorado as "Hell roaring Bill, from Bitter Brook." Escalera is a Mexican whose experience has been of the rougher kind. His schooling was among the southern Indians, and Comstock says he is one of the best trailers living. Either of them has seen more desperate adventures, doubtless, than has the "Wild Man" Harper's Monthly has immortalized.—*Denver News*, March 19th.

The quantity of water discharged into the sea by all the rivers in the world, is about thirty-six cubic miles in a day; hence, it would take above 20,000 years to circulate a current of this depth through creeks and rivers.

TO COLOR WOOD FIBRE WHILE GROWING.—It is well known that scientific experiments have lately been in progress in Europe to color the fiber of wood during the progress of its growth. Mr. Hyatt reports the results of an invention, made by himself for this purpose, and at a late meeting of the Royal Agricultural College in London, exhibited sections of wood thus stained with various hues. This is accomplished by the introduction of metallic solutions into the substance of the growing tree, which is carried up by the sap, and fixed into the fibres and cells of the stem.—*Mining and Scientific Press.*

SUBSTITUTE FOR GREEN TEA.—In some parts of Germany they gather the strawberry leaf, and also the flowers when young, and after selecting and clearing them, (without the use of water,) they are dried in the air in a shady place, out of reach of the sun. To these leaves the Germans give the appearance of Chinese tea, by first pinching their stalks off, waving them over the fire, and rolling them up when in a flexible state, and then drying them. In this state the substitute for tea is ready for use; and, being prepared exactly in the same manner, the difference, it is said, can hardly be distinguished.

A NEW WEATHER GUIDE.—Two drachms of champhor, half-drachm of pure saltpetre, half-drachm of muriate ammonia, and two ounces of proof spirits, in a glass tube or narrow phial, will make a pretty sure weather guide. In dry weather the solution will remain clear. On the approach of change, minute stars will rise up in the liquids; while stormy weather will be indicated by the very disturbed condition of the chemical combination.

Captain Drake, of Laporte, Colorado, is in town. He confirms all we have said in relation to Maynadier's interview with Red Cloud. On that occasion Maynadier desecrated the National flag by bearing it in his hand while he knelt before the Indian, remaining in that attitude for several minutes.—Denver *News*.

THE SPEED OF ELECTRICITY.—During the operations involved in determining the difference of longitude between the Astronomical Observatory at London and that at Washington, it was ascertained that the time occupied by a single flash of electricity through the Atlantic Cable was only thirty-five one-hundredths of a second.

DIED.

In this city, March 28th, of pneumonia, Mr. DAVID SHOWELL, aged 21 years.

[Friends and acquaintances of deceased are invited to attend the funeral, to-day, at 3 o'clock, from the residence of his brother, William Showell, where carriages will be in attendance.]

At Liverpool, England, February 9th, Mrs. MATILDA ANN THOMPSON. The deceased was a sister of Dr. Tait, of this city.

NOTICE.

THE FIRM OF MORSE, WALCOTT & CO., COMposed of E. G. Morse, Samuel Walcott, and C. S. Hursh, and doing business in the City of Great Salt Lake, Utah, and Helena, Montana Territory, was, on the 7th day of March, 1867, dissolved by the mutual consent of said parties, the said Samuel Walcott having, on said day, purchased of the said E. G. Morse his interest in said firm.

JOHN PARROTT, CHAS. B. McLANE,
WM. C. RALSTON, A. HAYWARD,
LOUIS A. GARNETT.

LOUIS A. GARNETT,.....President and Manager
JOHN HEWSTON, Jr.,..Cashier and Superintendent

This Company having greatly enlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business.

The Tariff of Charges

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important increase in both the mining and commercial value of bullion.

Their charges hereafter will be as follows:

For Assaying Deposits for Unparted Gold Bars.

One-eighth of one per cent. (heretofore a quarter) for all amounts over $1,600, and two dollars for any smaller sum. Returns made in twenty-four hours.

For Assaying Deposits for Unparted Silver Bars.

Two dollars for the gold contained, up to $1,600, and one-eighth of one per cent. for all amounts over that sum, and one per cent. on the silver contained. Returns made in twenty-four hours.

For Refining Deposits made for Coin or Fine Bars.

On bullion under 300 parts gold, 2 cents per ounce.
On bullion from 300½@600 parts gold, 4 cents per ounce.
On bullion from 600½@750 parts gold, 6 cents per ounce.
On bullion from 750½@949½ parts gold, 8 cents per ounce.
Above 950 the only charge will be for coinage. But there will be no charge for refining less than two dollars.

For Coining Gold.

This charge will be the same as at the Mint—a half of one per cent.—and which is paid by us to that institution. But there will be no charge in future for making fine gold or silver bars from bullion refined by us.

Returns in Coin Made in Forty-Eight Hours.

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint.

Gold bars of other Assayers in good standing, will be cashed by us at the highest market rates.

Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co.'s Express.

Charges at U. S. Branch Mint.

For the convenience of those not familiar with the terms of the Mint, we subjoin the tariff of charges now in force at that Institution:

For refining bullion under 300 parts gold, 3 cents per ounce.
For refining bullion from 300½@600 parts gold, 5 cents per ounce.
For refining bullion from 600½@750 parts gold, 7 cents per ounce.
For refining bullion from 750½@899 parts gold, 11 cents per ounce.
For refining bullion from 899½@949½ parts gold, 14 cents per ounce.
The charge for coinage is half of one per cent., and the charge for making fine silver bars, the same.
Comparing the net value of deposits for coinage, with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost ¼ of one per cent.—they must be sold at the following per rates to equal the return which would have been made had they been deposited for coinage:

830 par to equal Mint return, at refining charge of 14 cents.
845 par to equal Mint return, at refining charge of 11 cents.
865 par to equal San Francisco A. & R. Works return, at refining charge of 8 cents. [mr21-3m-is

PROPOSALS FOR CHARCOAL.

ACTING ASST. Q. M.'S OFFICE,
CAMP DOUGLAS, U. T.
March 15th, 1867.

Sealed Proposals, in duplicate, will be received at this office until 12 o'clock M. April 1st, 1867, for the delivery at Camp Douglas, U. T., of—

Seven Thousand (7,000) bushels of Charcoal; the Charcoal to be of good merchantable quality, made of either Cedar or Quaking Aspwood, and subject to inspection before being received.

The parties to whom the contract may be awarded will be required, within forty-eight (48) hours after the acceptance of the bids, to give bonds equal to 25 per cent. of the amount of the contract, for the faithful performance of the same.

Each Proposal must be accompanied with a statement, signed by the persons offered by the bidder as his securities, stating their willingness to enter into bonds in case the contract should be awarded to said bidder.

In case of "firms" making bids, each individual name must be written out.

The Charcoal must be delivered as follows:

Seven Hundred (700) Bushels by the 10th day of May; Thirteen Hundred (1,300) Bushels in June; Two Thousand (2,000) Bushels in July; and Three Thousand (3,000) Bushels in August.

A copy of this advertisement (a slip cut from this paper) must accompany each proposal.

Payment to be made in such funds as may be furnished by the United States Government.

Proposals to be inclosed in an envelope and indorsed "Proposals for Charcoal," and directed to the undersigned.

The Government reserves the right to reject any or all bids.

No bid will be considered unless the person making it is present.

The party to whom the contract may be awarded will be required to pay for the insertion of this advertisement.

Bids for any reasonable quantity will be received.

JNO. McCLINTOCK,
Captain 36th U. S. Infantry, A. A. Q. M., and Brevet Major United States Army. (mr16-td)

The Daily Union Vedette

Local and Miscellaneous.

ADVERTISERS.—The VEDETTE is the pioneer newspaper of Utah. Its extensive circulation in the mining camp and city of Montana and Idaho, (which it gives the telegraphic despatches a whole week ahead of the Pacific papers,) makes it the most prominent medium for advertising in these four Territories.

AN HONEST MAN.—Yesterday a gentleman called us in our sanctum and stated that he had subscribed for the VEDETTE, paid for it to the fourth period, but that it had been sent only six months beyond the time paid for, and he wished to pay arrearages. It takes a considerable to nonplus men of the quill, but this struck us dumb for several seconds. Not being quite satisfied that he desired to pay us cash, and feeling sure we owed *him* nothing, we asked pardon for our silence, and requested him to repeat what he had said. He told us he wished to pay, as before stated, and a debt, for that not one in ten would pay, even if called ten times—for the answer would be, when presented a bill, "I only ordered the paper for six months, or a year, for which I have your receipt. No, siree, you don't play that game; that's played out." We would like the gentleman's name, only he is a modest man as well as a model of honesty; but will give his address, which is Mount Clemens, Michigan.

There are honest men abroad, whom we have addressed letters in the shape of duns, follow the example of the Mount Clement gentleman, and tell us how much you owe, and it will make them feel *clement*.

THE MAILS.—Through the politeness of Mr. Hallan, thief clerk of the post-office in this city, we have been shown a letter received from the special agent of the Post-office Department at Chicago, who, it appears, had written to the postmaster at New York city in relation to forwarding valuable mail matter in canvas sacks *without locks*, and received the following reply. He states "that he daily sends out 20 to 30 letter pouches, and has to depend on incoming mails for supply; that about that time, from snow storms, the mails were very irregular, and that he had either to send bags without locks, or to send no mail at all," but that they be sealed them, and supposed the bangtails they got on the route, broke the seals. The special agent adds: "Hence you see the fault is at New York, and the reason." This explains one of the faults complained of in this paper yesterday, and shows that the matter has received prompt attention from the postmaster in this city.

NEW PROCESS.—We visited the establishment of Bohm & Molitor yesterday, to witness a new process of extracting the precious metal from some ore taken from the Mount Hood mine in Pahranagat. It is said to be the cheapest process yet discovered, and peculiarly adapted to the ore of the Pahranagat mine. A scientific friend accompanied us (*being familiar with* the subject will prepare *an article* which will be given to our readers *in a day or two*. We were presented with a silver button taken from a pound of ore which can be seen at our office. The assay of the ore was $119 per ton.

CORNER NAMED.—The corner of Main and Second South street, has been the general resort for all those who have nothing to do but watch what is going on in the great thoroughfare of the city, but we had never heard the corner named until yesterday. While recently the store at the corner has been converted into an auction house, and there is to be an array of furniture, such as chairs, tables, &c., displayed in front of it. Yesterday one of the visitors meeting a friend at this corner, congratulated him on the fine furniture with which the "Bummers Corner" was furnished.

SAD NEWS.—Dr. Tait, of this city, received yesterday the sad inteligence of the death of his sister, Mrs. Matilda Ann Thompson. The circumstances of this unfortunate lady accidentally taking fire, which resulted in her death after many hours of severe suffering. This was a devoted wife and accomplished sister, and the many friends of Dr. Tait will sympathize with him in this deep affliction.

DISTINGUISHED ARRIVAL.—General Cheltain the new U. S. Assessor arrived from the East yesterday. The General is from Galena, Ill., recently of the U. S. army, and comes amongst us to fill the responsible position recently vacated by the resignation of General Smith. The General is accompanied by his lady and is stopping at the Revere House.

EXONERATED.—Senators Doolittle and Patterson have been exonerated from the charge of complicity in the frauds for which Colonel Smythe has been recommended to be removed.

BILL PASSED.—The Lincoln monument association bill has been passed in Congress.

Arrivals and Departures.

For the North—March 28—A. Finks, John Bell, J. T. Parkinson, W. H. Parkinson.
From the East—March 28—J. Faulkner, General Cheltain and lady, Joseph Hughes.
From the West—March 28—M. H. Cohn, Messenger.

Arrivals at the Revere House.

March 26—W. H. Wallace, J. V. Johnson,
March 27—Q. T. Parkenson, W. H. Parkinson, Helena; Lewis McMurry and wife, Star Lodge; J. G. Ficso, Fort Bridger.

NEVADA LEGISLATURE.—In the Senate the following protest was introduced by Mr. Summerfield:

The undersigned respectfully protest against the action on the part of the Senate, at this session, on bills proposing to amend the present Revenue law in accordance with the concurring proclamation and the recent Revenue message of the Governor; as they hold and believe that the statements of the Governor in his proclamation and message in regard to additional taxation—assumed by him to be needed—are incorrect and unwarranted in any respect; there being in the opinion of the undersigned no just cause whatever for the calling of the present special session.

CHAS. A. SUMNER,
F. M. PROCTOR,
FRED. HUTCHINS,
D. L. HASTINGS,
S. GERLACH.

In the Assembly, a charge was entered against A. H. Linsak for writing a communication to the *Territorial Enterprise*, insulting, misrepresenting, and reflecting dishonor upon the Assembly. The principal portion of the session was spent in discussing the question.

Wholesale Market Report.

CORRECTED DAILY.

SALT LAKE CITY, March 26, 1867.

COUNTRY PRODUCE

CURIOUS RELICS FROM THE SWISS LAKES. At the meeting of the Connecticut Historical Society, recently, were exhibited some articles found in the bottom of one of the Swiss lakes, relics of an ancient people who dwelt on piles out in the water. These things were procured at Zurich by the late Mrs. Mary C. Booth, and have recently been presented to Trinity College.

In January, 1854, the water of Lake Zurich fell lower than has ever before been known, the season having been of unusual dryness, and the opportunity was made use of by the inhabitants of Obeameilen to make repairs on its banks. Under a depth of a foot and a half of mud a layer of blackish mould, in which were found implements of stone, bone horn, bronze and iron, debris of pottery, etc.; the remains of piles were also found in regular rows, from one to two feet apart. Close examination by Dr. Keller, President of the Swiss Antiquarian Society, satisfied him that these piles had supported a platform; that on this platform huts had been raised, and that, after being thus occupied, probably for centuries, the structure had been destroyed by fire. The huts, it would seem, were for the most part circular in shape, measuring from 10 to 15 feet in diameter; they were of wattles, plastered with clay, masses of which, hardened by fire, still bearing the marks received from the wattles when wet, have been recovered from the beds of the lakes.

Further investigations have shown that most of the lakes of Europe have been thus inhabited. Up to 1863, 200 such pile villages have been found in Switzerland alone, and some of them of great size, containing not less than 100,000 piles. There age is variously estimated at from 3,000 to 7,000 years, and some venture to assign even a still higher antiquity. Whoever the dwellers on the pfahllauten were, there remains show that they grew wheat and barley; that they ate the flesh of the ox, the goat, the sheep and the pig; that among the beasts of the chase which they hunted down was the now extinct specie of the aurochs; that they had horses, dogs and cats, that they had apples, pears, wild plums and wood raspberries; that they baked pottery; that their women plied the distaff and knitted; that they made hempen mats and wove linen cloths.

Among the articles exhibited to the Society were apples, wheat, barley, flax, hazlenuts, the seeds of the wild plum, strawberry, raspberry, elderberry and straw, all carbonized by the action of fire, to which fact they owe their preservation; and a very curious "water nut" put up in a hermetically sealed glass tube. We have heard of no other similar specimens in the country. [Hartford Times.]

SUDDEN DEATH.—The community was startled this morning on learning of the sudden death of Mrs. Hulburd—the young and amiable wife of Mr. M. O. Hulburd, one of the proprietors of the Savage mine. A lady friend called at their house this morning about nine o'clock, and on entering the parlor observed Mrs. Hulburd reclining on the sofa, and on going to her was inexpressibly shocked at the discovery that she was dead. She was dressed as she had been the previous evening when she visited the family of Dr. Chamblin, whose house she left for home about half-past nine o'clock. When she was discovered this morning she had one shoe off, but had apparently made no other preparation for bed, and the door of the house was unlocked. It would appear from the circumstances that the young lady must have died suddenly last evening shortly after her return home. Her husband is absent in the States. The melancholly death of Mrs. Hulburd will cause general morning, for she was widely known and beloved for her sprightly intelligence and sweet disposition.—R. R. Reveille, March 20th.

A GOOD CUSTOM.—Long ago, in Massachusetts it was the custom for a person to go about the meeting house during divine service and wake up sleepers. "He bore a long wand, on one end of which was a ball, and on the other a fox's tail. When he observed the men asleep, he rapped them over the head with the knob, and roused the slumbering sensibilities of the ladies by drawing the brush across their face."

DETERMINED TO BE KNOWN.—A mischevious youngster, in Richmond, Va., upon hearing read an account of a fire, in which a play-fellow figured as the originator, remarked that "he'd be dogged if he wouldn't get his name in the paper, too," and straightway went up stairs and set fire to his own bed, which, but for the timely arrival of the fire department, would have laid the dwelling in ashes.

A NUMBER of New Mexican merchants have arrived at Junction and perfected arrangements, previous to their departure for Eastern markets, to ship from that point. One of them informs the Union that over 1,400 wagons would be loaded at that point this season. Leavenworth Times.

MORE PLAUSIBLE.—Mr. Snyder says Snyder's excuse for being out nearly all night, that he was waiting on the Common to see the meteoric shower, would be more plausible if his clothes didn't smell so strong of cigar smoke and he

ANKER'S

ONE-PRICE CLOTHING STORE,

F Street,

SIGN OF THE GILT ANCHOR!

DENVER, COLORADO,

Is not the 'Largest,' but the MOST ELEGANT CLOTHING HOUSE in Colorado.

And from the East and to the West,
Are gentlemen dressed
In suits from Anker's Hall;
And none, as yet, was heard to regret,
That he ever gave him a call.
He honestly deals,
And nothing conceals,
Regarding the wear of his clothes,
But speaks with the truth,
To man and to youth,
Which each of his customers knows.
Hence, friends, one and all,
Go to Anker's Hall,
Walk boldly—don't cowardly creep,
For there you'll find,
All obliging and kind,
With Clothing tremendously cheap.

The citizens of Utah, Idaho and Montana are at all times cordially invited to call at ANCHOR'S POPULAR CLOTHING HOUSE, when in Denver, and examine his most Elegant and Tasteful Stock of Goods, which will be sold at Prices Guaranteed Lower than the Lowest.
